

Kleine Trommel

Shiho Kano
Niklas Taleb

Images always display the prison they were made within. As well as the childhood pleasure at the discovery of the hidden rules called form.

Passing from morning to evening, among the segments of the whole that exist continuously in the world. Here they are separated and exist alongside us.

What is nature if not an imitation of itself and why shouldn't this be true in our own lives. New knowledge appears on the surface of our lives.
